

## Hypodown pillows

Why limit a filling as special as Hypodown to comforters? Our pillows practically guarantee sweet dreams. And we find that people become so attached to them that they take them on planes, on long car rides, or anywhere else they might need to rest their neck and eyes. And like our comforters, our pillows are available with fills of Hypodown 800, 700 and 600, so you can fit the price and level of quality to your own expectations.

All our Hypodown® sleeping pillows are available with your choice of style and fill. Decide what size best fits your needs, use the chart below to pick the style you want, and then pick your fill. It's that easy.

## Goose feather pillows

It's a rare person that doesn't get nostalgic over genuine feather pillows. And while feathers are sometimes a less than ideal fill for sleeping pillows, we make them available so that you have the chance to remember nights gone by.

## Wool pillows

In the mind, wool is often synonymous with warmth. And we want to make sure that if you want wool, you can get it. Our wool pillows are an excellent choice for people who want a firm or extra firm pillow. And our 6"x15" wool neck roll finishes the room décor with style.
